Frontend Software Developer with 5+ years of experience building responsive, user-focused web applications. Strong background in React, Next.js, and TypeScript, with hands-on experience in both freelance and product-based environments. Proven ability to deliver clean, scalable UI solutions and collaborate effectively with designers and backend developers.

SKILLS

- **Frontend:** HTML, CSS, SCSS, JavaScript, TypeScript, React, Next.js, Bootstrap, Tailwind, Shadcn/ui, Redux, Zustand, TanStack, Framer Motion, GSAP, Livevire, AlpineJs
- **Backend:** Node.js, Express, Fastify, NestJS, REST API, GraphQL, PHP, Laravel
- **Databases/ORM:** PostgreSQL, PrismaORM, TypeORM, MySQL
- **DevOps &Tooling:** Git, GitHub, CI/CD (GitHub Actions), Docker, Vercel, Netlify, Postman, Figma
- **Testing:** Jest

EXPERIENCE

Lead Frontend Developer (*Asign Web Development Studio*) Nov 2019 – Jul 2024

(progressed from HTML Developer → Frontend Developer → Lead Frontend Developer)

- Owned frontend architecture and technical decisions across multiple projects.
- Built and maintained responsive, SEO-friendly web applications using React and Next.js.
- Optimized client-side performance (TTI reduced by ~30%) using code-splitting and lazy-loading.
- Designed reusable UI components and design systems to improve maintainability.
- Ensured accessibility, clean UI architecture, and cross-browser compatibility.
- Collaborated closely with designers and backend developers to deliver production-ready solutions.
- Acted as the primary frontend owner, responsible for code quality and long-term maintainability.

Web Developer (*Freelance*) Dec 2016 – Oct 2019

- Built and maintained responsive websites using HTML, CSS, and JavaScript.
- Developed and customized WordPress and OpenCart solutions for small businesses.
- Applied basic performance optimization and SEO best practices.
- Worked directly with clients to gather requirements and deliver functional web solutions.

Digital Product & Operations Specialist (*TviyMayster*) Oct 2015 – Jun 2017

- Worked on the operational and technical side of a digital services platform.
- Coordinated website updates and basic UI improvements.
- Gained experience with user flows and digital product logic.

Link Builder / SEO (*Promodo Digital Agency*) Feb 2014 – May 2015

- Early experience in SEO and digital content optimization.
- Worked with website structure, metadata, and basic technical SEO principles.

PROJECTS

Personal Portfolio — https://ovbi.dev

- Built a personal portfolio using Next.js and TypeScript.
- Implemented smooth animations and transitions using Framer Motion and the View Transitions API.
- Focused on performance optimization, SEO, and clean UI architecture.

Grant Market — https://grant.market

- Developed the entire frontend from scratch.
- Integrated the frontend with a Laravel backend using Livewire.
- Built responsive layouts and interactive UI components for production use.
